Staff Report

SUBJECT: State Highway Operation and Protection Program (SHOPP)

MEETING DATE: February 1, 2007

Agenda Item: 9

RECOMMENDATION: Receive report on currently programmed SHOPP projects.

DISCUSSION:

The State Highway Operation and Protection Program or SHOPP is a four-year program of projects administered by Caltrans. Projects fall into one of six categories: collision reduction, bridge preservation, roadway preservation, roadside preservation, mobility and facilities.

Projects are approved for inclusion in the SHOPP on a statewide competitive basis among the districts with safety improvements having the highest priority, followed by pavement and facility rehabilitation, and operational projects.

The Santa Barbara County projects in the attached list are part of the 2006 SHOPP and include projects carried over from the 2004 SHOPP, amended into the 2006 SHOPP and emergency projects in progress. The 2006 SHOPP became effective July 1, 2006.

To obtain additional general and/or project specific SHOPP information, you can go to:

<http://www.dot.ca.gov/hq/transprog/shopp.htm>

You can also review more detailed project specific information by clicking on "Project Status" at the District 5 webpage: <http://www2.dot.ca.gov/dist05/projects/>

If you have any questions about the information contained in the attached list or on the above web site, please contact the appropriate Project Manager.

STAFF CONTACT: Pat Mickelson (683-1460) or Cindy Simeroth (549-3050) of Caltrans
